Sling IDE Tooling
Robert Munteanu – rombert@apache.org

A little bit about myself

- Apache Sling committer
- Long-time Open Source developer (MantisBT , Eclipse Mylyn Connectors)
- Working on Adobe CQ

@rombert

20 months ago I started working on the apache #sling stack. Fast forward today, hacking late at night, still learning, still amazed.

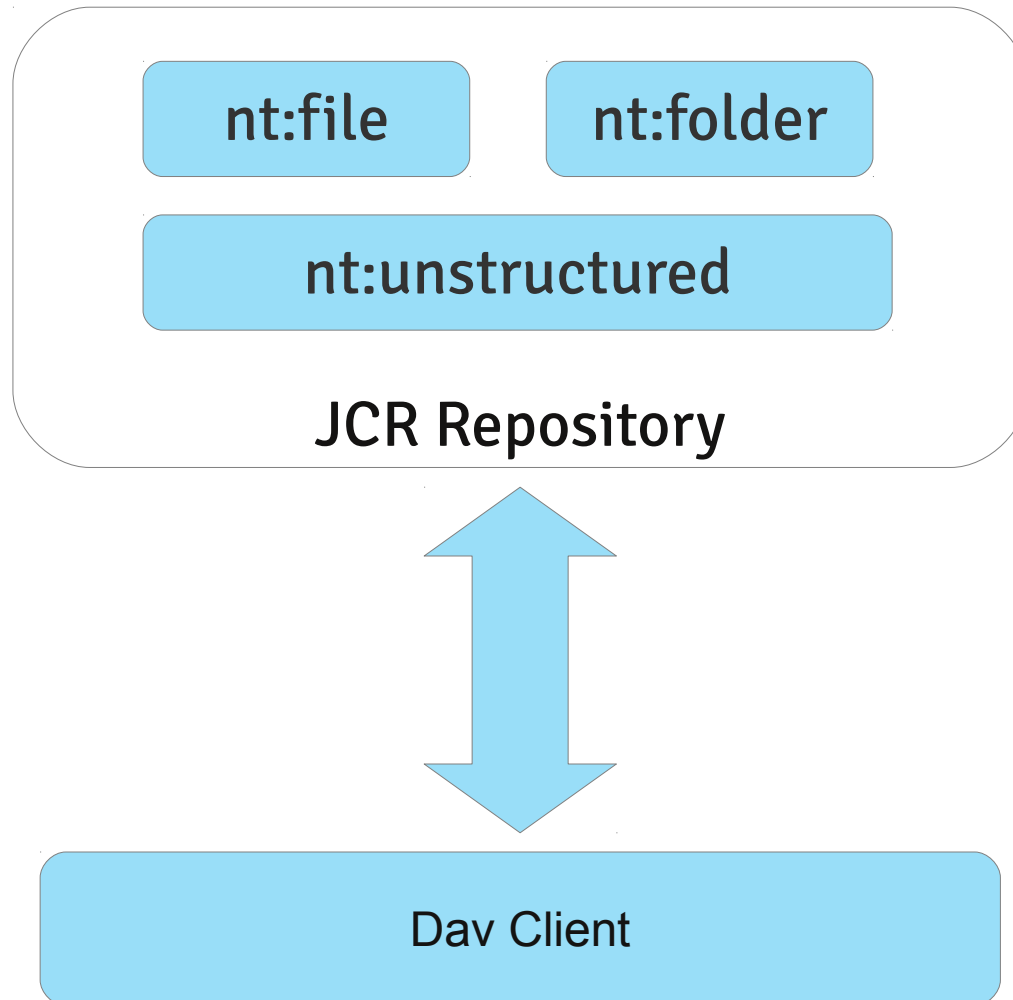

Agenda

- Why did we start working on IDE tooling?
- What have we done so far?
- What do we want to do next?
- How is the IDE tooling developed?

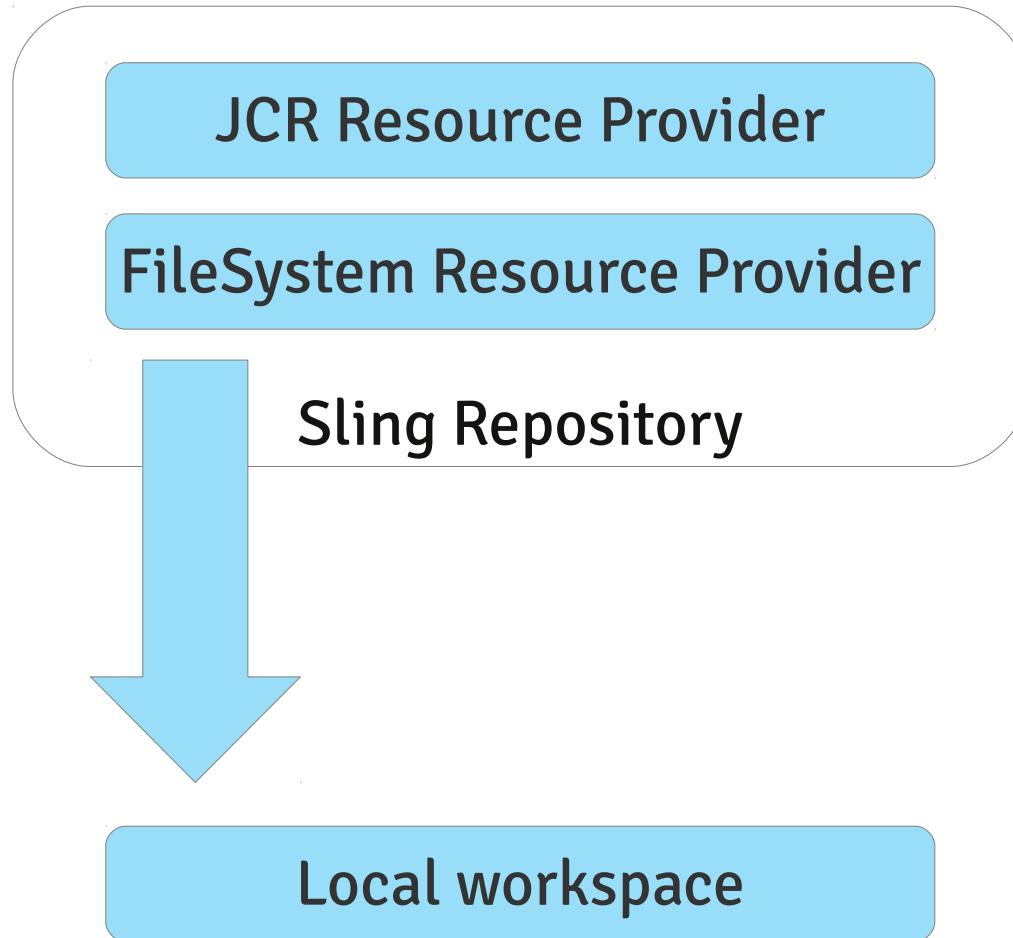

Why did we start work on IDE tooling?

What have we done so far?

- Oct 2012 – Slingclipse first announced by Antonio Sanso
- May 2013 – Plans set out for initial release for Sling IDE Tooling
- Aug 2013 – FileVault donated to ASF
- Sep 2013 – FileVault included in Sling IDE Tooling Preview

What have we done so far?

Demo time

- Server definition
- Content synchronization
- Bundle redeploy

What do we want to do next?

Sling IDE Tooling Roadmap

- Community involvement – users and contributors
- Stabilize and deliver Eclipse tooling 1.0
- Investigate tooling for other IDEs
- \$YOUR_FEATURE_HERE
